

Cardinal Health™ gentleheel® Devices

Safe, gentle incision devices for your most precious patients

Cardinal Health offers the reliable products you need for every patient, no matter how small.

Cardinal Health™ gentleheel® Devices offer a safe and efficient way to acquire blood samples from the heels of newborns and preemies. Sterile and not made with natural rubber latex, gentleheel® Devices are engineered to help ensure ease of use and minimal discomfort.

- **Tri-level blade** generates a smooth, sharp, less traumatic incision.
- **Unique cutting action** provides a more consistent incision.
- **Ergonomic design** for improved handling.
- **Color-coded** for easy selection.
- **Hardened stainless steel blade** improves the accuracy of incision depth accuracy.
- **Permanent blade retraction** minimizes possible injury or reuse.
- **Multiple visual indicators** reinforce the incision site.
- **Welded plastic case** prevents accidental exposure to the blade.

Cat. No.	Description	Incision (depth x width)	Color	Quantity
